# Book Review: Projekt 1065

John Van Fleet

Author: Alan Gratz

Publisher: Scholastic

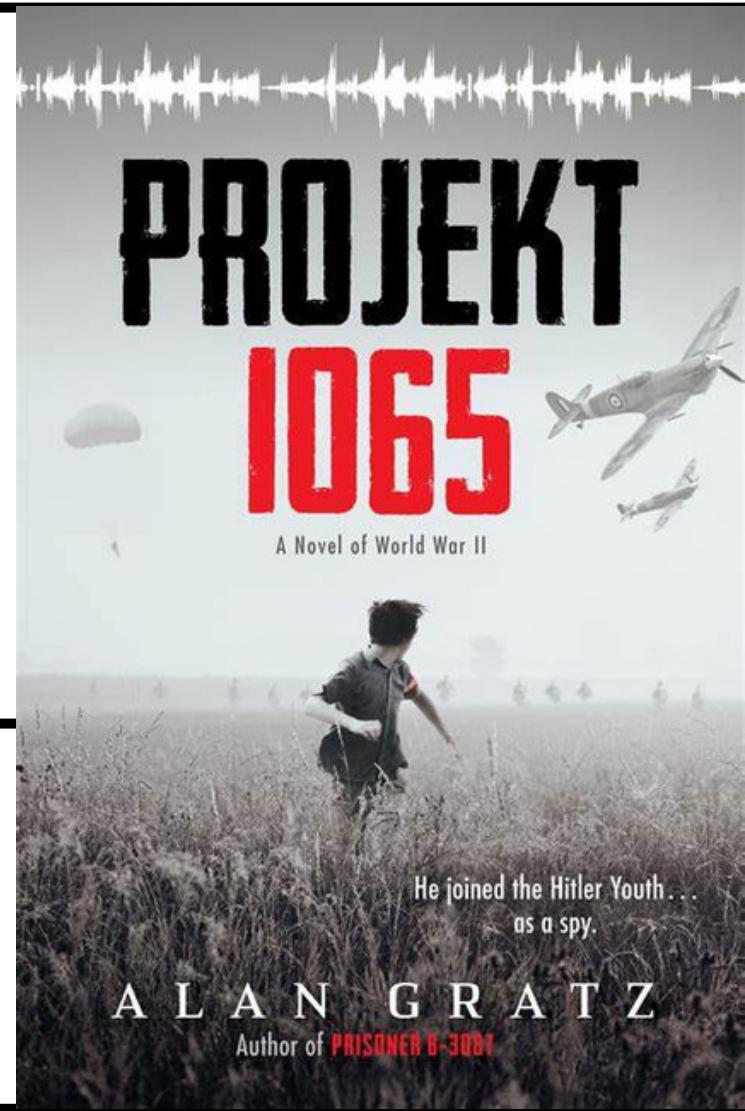

Grades: 6th and up

Pages: 320

Genre: Historical Fiction

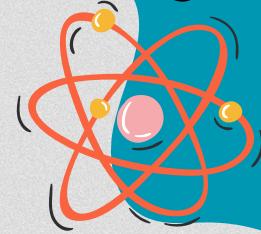

4.5 Stars

Projekt 1065 is an overall well written book. With cliffhangers at every turn, Gratz catches your attention and makes you want to read the whole book in one sitting. The book does have some scenes that might be scary to younger readers, but is overall a good read for anyone. It is about Michael, who is a kid spy for the allies in Germany. He faces tough decisions at every corner, but always stays strong.

# The Science Scoop

John Van Fleet

One of these snakes is a copperhead and one is a non-venomous water snake. Can you tell the difference? The most noticeable difference is the copperhead has "Hershy kiss" shaped bands. The water snake has more stripe-like bands. A less noticeable difference is that the copperhead has "cat eyes" and the water snake has normal looking eyes. Now can you tell the difference?

Note: A water snake is non-venomous but will still bite you. It also has an anti-coagulant in its saliva that will make you bleed for longer than normal. Stay cautious about both!

## One Night Ultimate Werewolf

John Van Fleet

**Number of Players:** 3-10

**Wacky Fun Rating:** 8/10

**Replayability:** 9/10

**Genre:** Hidden Role, Strategy, Bluffing

**Summary of Gameplay:** Your role is decided at the beginning of the game. You are either on the werewolf team, villager team, or on your own team. You fall asleep, and wake up when your role is called, and you do what you are told to do. Then everyone votes, and you try to kill one of the werewolves. This game can also be combined with any roles in the other One Night games.

# Video Game Review: Rocket League

John Van Fleet

Rocket League is a fun game for all ages. The concept of the game is basically playing soccer with racecars.

The ESRB rates this game E for everyone.

I rate this game 9/10, only because they could improve the game with more stadiums, cars, and game modes.
